

APPLICATION FOR BUILDING PERMIT

App No. _____

For Solar Photovoltaic System Less Than 35 kW AC Output

Applicant Name: _____

Applicant's Mailing Address: _____

Applicant's e-mail: _____ Phone: _____

Project Location (9-1-1 address): _____

Owner's Name: _____

Owner's Mailing Address: _____

Owner's e-mail _____ Phone: _____

Present Use of Property: ☐ One Family Residential ☐ Two Family Residential☐ Transient (incl. Motel, hotel, dormitory) – # of units: ____ ☐ Agricultural ☐ Commercial

No. of Panels proposed _____ Each Panel _____ Sq Ft Panel weight _____ lbs.

Output: _____ kW AC Type of array: ☐ Fixed ☐ TrackingBattery Storage System ☐ Yes ☐ No In separate building ☐ Yes ☐ No ☐ N/A

Roof-mounted system: *Roof Load certification by engineer is required

Ground-mounted system: Max. Height above ground: _____ ft.

Total area of ground cover with PV system _____ sq. ft. or acres (0 for roof)

Type of Fencing (if required): _____ Fence height _____ ft.

Support structure: ☐ Driven / helical posts ☐ Concrete piers ☐ Other _____

Estimated total cost of this project: \$ _____ Proposed start date _____

General Contractor: Name: _____

Address: _____

Phone: _____ e-mail: _____

Federal Employer ID Number (EIN) : _____

Workers Comp Insurance Company: _____

****Attach proof of Workers Compensation Insurance****

Additional Information: _____

Required Attachments: (Incomplete applications will not be considered)

All Systems: Attach Construction Plans and Details for Building Code

Ground-Mounted Systems: 1. Attach Site Plan 2. Attach Construction Plans and Details.

3. Attach Erosion & Sediment Control Plan 4. Attach a list of all contractors and include

5. Proof of Workers Compensation Insurance for anyone working at the site.

APPLICATION FOR BUILDING PERMIT

App No. _____

For Solar Photovoltaic System Less Than 35 kW AC Output**Read and Sign the following:**

I hereby certify that my project described below does not disturb one (1) acre or more during the life of my project. It is therefore understood that my project does not meet the requirements for a National Pollution Discharge Elimination System (NPDES) for Stormwater Discharges Associated with Construction Activities.

If the scope and size of my project changes and the amount of earth disturbance is equal to or greater than one (1) acre, I will contact the Wayne Conservation District for a determination of NPDES permit needs.

However, my project still requires a written Erosion and Sedimentation Control Plan be developed. This plan outlines how I am going to prevent sediment from leaving my site during construction. Items to consider in the plan are: Sequence of Construction, Temporary Measures (silt fence, mulch, etc.) and Permanent Measures (seeding and mulch with soil supplements, gravel coverage, etc.). This plan does not have to be reviewed by the Wayne Conservation District unless the municipality or another permit requires a review and approval.

This document cannot be considered a waiver of any other federal, state or local permits.

The applicant certifies that all information on this application is correct and the work will be completed in accordance with the approved construction documents and PA Act 45 (Uniform Construction Code) and any additional approved building code requirements adopted by the Municipality. The property owner and applicant assumes the responsibility of locating all property lines, setback lines, easements, rights-of way, flood areas, etc. Issuance of a permit and approval of construction documents shall not be construed as authority to violate, cancel or set aside any provisions of the codes or ordinances of the Municipality or any other governing body.

The applicant certifies he/she understands all the applicable codes, ordinances and regulations.

Application for a permit shall be made by the owner or lessee of the building or structure, or agent of either, or by the registered design professional employed in connection with the proposed work.

I certify that the Township Officials or the Township Official's authorized representatives shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.
